Profile

I am a 3rd year student pursuing my Bachelors in Technology in IT from Guru Tegh Bahadur Institute of Technology, New Delhi. I am a passionate and detail-oriented Full Stack Developer, eager to embark on an exciting journey in the world of web development. Despite being a fresher, I bring a wealth of knowledge and hands-on experience with the MERN (MongoDB, Express.js, React.js, Node.js) stack, coupled with expertise in Next.js.

Projects

Airbnb Clone

The Airbnb clone project, built using React and Next.js, replicates the functionalities of the original platform. Users can securely sign up, log in, and browse detailed property listings with amenities, pricing, and availability. The application enables registered users to book accommodations directly and provides an admin dashboard for managing user accounts, listings, bookings, and reviews.

Medium Clone

Made clone of the popular blog post website Medium using Next.js to handle page routing, implemented Server Sider Rendering (SSR) provided by Next.js to improve Search Engine Optimization (SEO).

Online Code Editor

Developed a robust code editor using React, allowing users to write and test HTML, CSS, and JavaScript code in real-time. Syntax highlighting and auto-indentation features were implemented to enhance the coding experience.

SKILLS

- **Programming languages** - HTML, CSS, JavaScript, Java, C++.
- **Front- end Technologies** - React.js, Bootstrap, Figma.
- **Back-end Technologies** - Node.js, Express.js, Next.js
- **Database Management** - MongoDB, MySQL.
- **Version Control** – Git, GitHub.
